## Serious Sauvignon Blanc Paired with Seafood and Chicken Salad \$25

We had a hard time pairing this [2016 Gamble Vineyard Sauvignon Blanc](#) with just one picnic food because it is seriously food-friendly. BUT, if we had to choose, we would nibble it beside a smoked salmon or white fish spread or with a chicken salad sandwich. Think you're tired of Sauvignon Blanc? This bottle will help you think again. Tom Gamble, has seriously invested in this vineyard-driven wine to make it truly distinct. It's complex, age-worthy, expressive and has a screw-top. Plus, Tom Gamble is dedicated to leaving the land in better economic and environmental shape for future generations. He follows in the footsteps of his family's conservation efforts by practicing sustainable farming protocols to produce great wines while ensuring the health and longevity of the environment. A perfect bottle to sip outdoors as you celebrate Earth Day.
